friends through the efforts of its former president, Principal John Mackay, which moneys were paid through the medium of an organization known as the Western Canada War Emergency Fund. Principal Mackay now requests that said balance on hand be returned to the said fund. The meeting will be asked to determine the manner in which these moneys shall be disposed of.

In adjusting the purchase price of the lands and buildings sold by the liquidator to the Dominion Government, the Government has retained a sum of approximately \$3,500 in respect of moneys paid in advance for rent, and also in respect of abatement of rent during the time one of the buildings was being restored following damage by fire. The liquidator is advised by his solicitor that the Government has no legal right to retain these moneys. The meeting will be asked to decide whether it will abandon all claim to these moneys, or attempt by legal proceedings to obtain payment of the same.

#### PROVINCIAL BOARD OF HEALTH.

##### "HEALTH ACT."

##### SANITARY REGULATIONS GOVERNING WATERSHEDS.

*Regulations re Logging Operations within the Health District established on Fairy Creek.*

**A**N Inspector shall be appointed by the Provincial Board of Health, who will also act as special Provincial police constable.

It shall be the duty of the Inspector to enforce the regulations hereafter set forth. He will reside on the works and consult with the manager of the company in regard to all recommendations he may make in the way of other regulations which may be deemed necessary to enact, owing to changing conditions incidental to the progress of the company's work.

The Inspector shall make a weekly report to the Provincial Board of Health.

No person shall be allowed on the watershed except on business connected therewith.

When a railway-track, road or trail is in close proximity to the river or creeks, the road-bed shall be drained from the cuts in the soil back from the river, allowing the surface wash to be carried back with permeable soil to sink-holes. It should be arranged that such drainage does not flow directly into the river.

The company shall place all buildings or camps of whatever kind or nature at such points as may be designated by the Sanitary Inspector.

At the camps the necessary latrines shall be placed over reasonably deep pits for the reception of discharges. An average of 8 feet in depth is recommended, and the pit shall be filled in before the refuse reaches a point within 2 feet of the surface.

During use the pits are to be disinfected by the application of lime daily. All privies adjacent to the camp must be rendered fly-proof.

All men operating in the bush are to carry portable privies of galvanized iron, with covers. These privies to be returned and emptied into pits. All portable privies or pails to be supplied with 8 oz. of unslaked lime daily.

Rules relating to the use of these conveniences, and absolutely prohibiting the discharge of human waste elsewhere within the watershed, will be enforced with great strictness, and under penalty of dismissal.

An incinerator must be provided adjacent to the camp where all garbage and refuse must be burned each day.

Proper receptacles must be kept on hand into which all refuse, whether liquid or solid, must be placed, and such refuse must be regularly destroyed by fire.

Every camp coming under these regulations shall be equipped with a wash-house or laundry containing a stove, tubs, and facilities for drying; also wash-basins, shower-baths, soap, and all proper

sanitary facilities to the approval of the Inspector. Cleanliness, of course, is necessary for the health of the men, and it must be insisted upon. Persistently unclean persons will be debarred from the watershed.

Bathing or laundry-work in the creek or stream is absolutely prohibited.

Liquid waste from kitchen, bath, laundry, and wash-sinks must be trapped, and led in a properly vented drain to a covered pit of sufficient area, located at a safely remote point to ensure filtration without endangering the purity of any stream or watercourse.

Plans and specifications of all buildings to be erected to be furnished in duplicate to and approved by the Provincial Board of Health.

Maps of the property (in duplicate) shall be furnished to the Department showing as far as possible the plan of the ground, and showing proposed buildings and roads in their relative positions to any stream or watercourse.

The company shall furnish food and shelter for resident and visiting Sanitary Inspectors whilst on the property.

In reference to the employees of the company, these regulations will provide for the taking of a Widal from every person entering the watershed as an employee in any capacity whatsoever.

Every such person must submit to typhoid inoculation in order to protect them from contracting typhoid when out of the watershed, either on business or pleasure.

All manure, cattle droppings or refuse of an insanitary nature must be removed daily in a manner satisfactory to the Medical Health Officer or Sanitary Inspector.

The Inspector shall order lime or other disinfectants to be used where thought necessary.

All bunk-houses must be built with adequate light and ventilation, the interior linewashed or painted, and fitted with iron bunks.

Urinals of an approved sanitary type to be provided and run into a treatment-tank.

In all camps above the intake, while working in the watershed, the pail system must be used and removed daily to the incinerator. Any man found not using these pails will be instantly discharged.

Spitting or blowing noses on the ground and all other filthy habits must be absolutely forbidden.

2. All officials and employees of companies operating in the watershed shall produce to the Inspector a certificate of a licensed medical practitioner that they are not affected by any disease which, in his opinion, would pollute the water.

3. (a.) Certificates of health and of a successful typhoid inoculation must first be produced before any man will be permitted to work for the company, in any capacity, above the city's intake.

(b.) Certificates shall state:—

(1.) That he is not suffering now from any communicable disease:

(2.) That he is not a "carrier" of typhoid fever, diphtheria, or scarlet fever.

4. (a.) All persons entering the watershed, for whatever purpose, other than officials and employees of the company, must first submit themselves to a blood test (Widal), and certificates of health must state:—

(1.) That the blood test is negative:

(2.) That he is not suffering now from any communicable disease:

(3.) That he is not a "carrier" of typhoid fever, diphtheria, or scarlet fever.

(b.) All persons who may be found to be typhoid-carriers, tubercular, or suffering from some venereal disease shall be rigidly excluded from the watershed.

(c.) No person, other than officials or employees of the company, will be permitted to enter the watershed above the intake without first presenting the above certificate of health to the Provincial Health Inspector in Charge and obtaining from him a permit to enter said watershed.

5. All sanitary regulations adopted by the Provincial Board of Health and applicable to a logging company or works where a number of men are congregated in the watershed, must be read to a man in a language he understands before he is

placed at work. His signature must be obtained, so that he may understand that for any breach of these regulations he will be dismissed from the camp.

In cases of dispute between the city authorities and the company or individual as to the interpretation of these regulations, the Provincial Board of Health may be appealed to to act as arbitrators, and their decision to be final.
